BACK MOUNT SANDWICH PREP. TABLE BACK MOUNTED CONDENSING UNIT

EPBNSR2

EPB Series

Refrigeration System

• Back mounted, self-contained and fully detachable Blizzard R290 condensing unit uses environmentally friendly, EPA-compliant R290 refrigerant with zero (0) Ozone Depletion Potential (ODP) and three (3) Global Warming Potential (GWP). Blizzard R290 is easily replaceable and requires no on-site brazing.

· Front air breathing for flexibility in installation.

· Electronically commutated (ECM) fan motors achieve rapid cooling with less energy consumption.

- · Full-length air duct ensures optimal cold air circulation.
- Time-initiated and temperature-terminated auto defrost cycle for seamless operation. • Large capacity, corrosion-resistant condenser and evaporator coils.
- Self-maintaining, energy-efficient condensate drain pan requires no external drains or electric heaters.

· High performance, auto-reverse condenser fan motor supports compressor ventilation and condenser coil cleaning.

- · Pressure relief devices allow rapid cabinet re-entry.
- · Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-15P.

Cabinet Construction

· Heavy duty stainless steel interior / exterior with rounded corners for a hazard-free workspace.

- · Open spaced interior with no walls between cabinet compartments.
- Vented stainless steel panel between top pan area and cabinet catches food debris.
 16 gauge, high quality stainless steel worktop, lid and hood.
- · Galvanized steel bottom and rear.
- $\cdot\,2.5"$ thick high density polyure thane insulation.
- Four 5" swivel casters with locks on front set.

Doors

- · Heavy duty stainless steel interior / exterior.
- \cdot 2.5" thick high density polyurethane insulation.
- · Frame heaters prevent exterior moisture build up.
- · Self-closing with adjustable torsion system for a positive seal.
- · Snap-in magnetic door gasket make cleaning and replacement an easy process.
- \cdot High strength, recessed door handles.

Preparation Area

- $\cdot\,\text{NSF}$ certified polycarbonate 6" deep pans (see table for size and quantity).
- · 1/2" thick, foam insulated lid keeps top pan area cold and prevents moisture build-up. · 12 1/4" deep cutting board is removable for ease of cleaning.

Shelving

- · One epoxy coated, steel wire shelf per section.
- · Height adjustable stainless steel clips.

Temperature Control

- · Multi-function digital controller with easy to read LED display.
- · Factory preset temperature, 35°F. Temperature setting range from 33°F to 54°F.
- · Audible overheat protection alarm for compressor and condenser coil.

Options

- · NSF certified stainless steel double overshelf.
- Additional shelving.
- \cdot 3" swivel casters with locks.
- \cdot 3.5" 6" height-adjustable and interchangeable legs.
