A Step Above the Standard

EVEREST REFRIGERATION

The Everest Standard

Quality

Everest prides itself in being a step above the industry standard. Top grade materials and components, highly skilled engineers, state of the art assembly lines and stringent quality measures all come together to create foodservice equipment that can withstand the most intense application.

Innovative Technology

Everest is powered by Blizzard R290, the industry's first all-in-one, slide-out cooling cartridge. The entire refrigeration system is housed in one removable case that eliminates the need for onsite brazing. This means shorter service downtime and a longer product lifespan. It is equipped with an auto-diagnostic system and an auto-reverse condenser fan motor that cools down the compressor and helps keep the condenser coil clean. Environmentally sustainable, Blizzard R290 uses EPA and DOE approved, natural R290 hydrocarbon refrigerant with zero Ozone Depletion Potential (ODP) and three Global Warming Potential (GWP).

Excellent Warranty

Everest offers the best warranty in the industry. Most equipment is backed with solid 3-year parts and labor warranty and 5-year compressor warranty. An expansive service network of factory-trained service representatives and over 1,700 Everest-authorized service companies nationwide are ready to provide immediate technical assistance.

Readily Available

Inventory fill rate is a primary focus of Everest's operations. The success of replenishment orders as well as factory and shipping schedules are achieved through precise inventory management and strategic asset movement and storage. Our expansive list of warehouses nationwide ensures local availability and support.

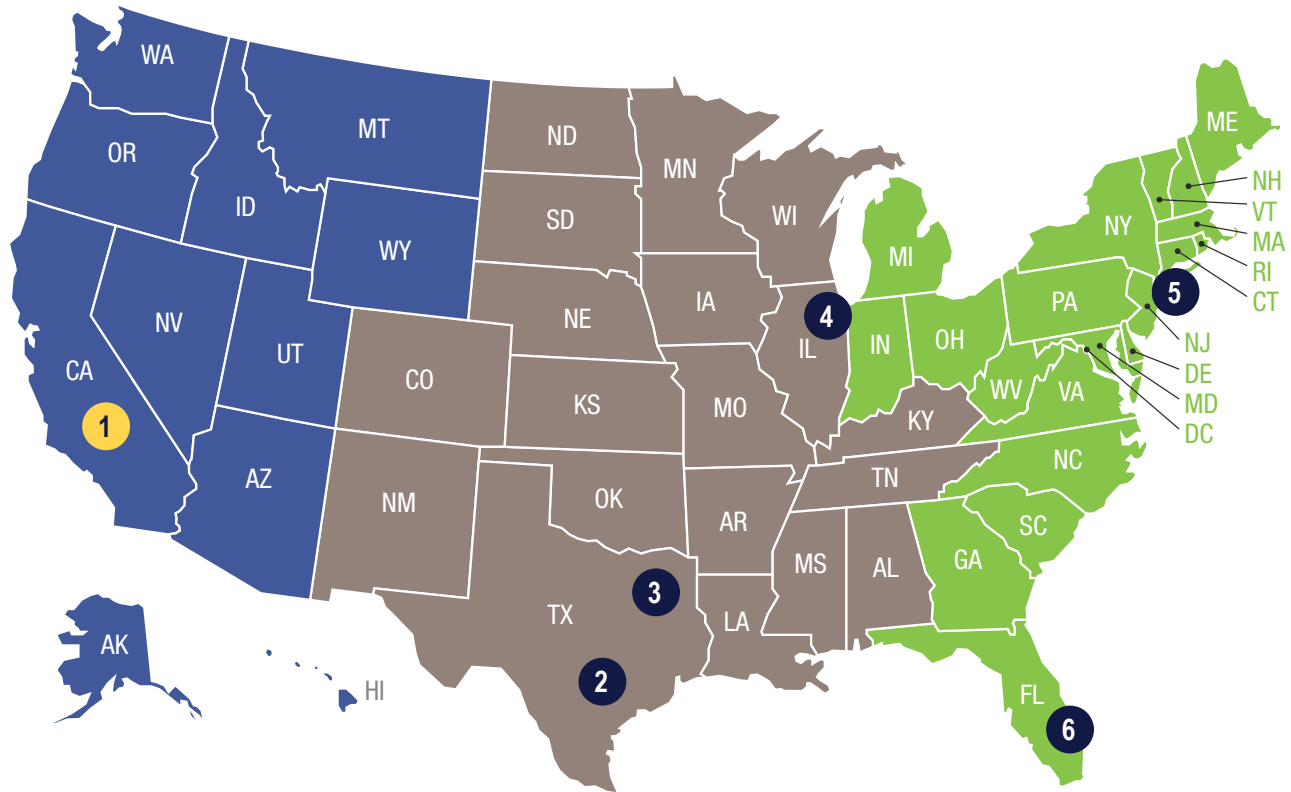

Competitive Pricing

Everest offers high-quality products at affordable and competitive prices - an accomplishment made possible in the current market through responsible planning. Direct control over factory assets and operations gives us the room to manage profits. This translates to better discounts, shipping perks, rebate programs, flexibility in payment terms, and many other incentives we can offer our customers.

Customer Satisfaction

Every good business is built on trust. While building quality foodservice equipment is our specialty, building strong relationships is our pursuit. We believe that peace of mind is just as important as a piece of technology. That is why our commitment does not end with our products, it continues with the promise of an invested partnership with our customers.
